## REFERENCE

I would like to make a genuine sincere reference for (John)Soceanu builders.

When getting building work done of any kind there are a few key things that a customer wants:-

1. Top Quality workmanship
2. Cheap price
3. Speedy completion
4. Strong work ethic
5. No disruption and disturbance.
6. Cleanliness.

On all accounts (John)Soceanu have been amazing and have exceeded my expectations. I have used many builders in the past and Soceanu are by far the best in all areas.

I initially had the entire back of my house rendered and painted and the front painted. I also had my kitchen fixed after 2 previous builders messed it up and a whole load of rubbish removed from my garden.

After i could see the quality was excellant i then got a new large hed built.

I personally would recommed them to anyone. Actually i already have and there is more work to come.

I am a very satisfied and happy customer.

Thank you John.

Kind Regards,

Adam Shakur
